

Safe, Peerless 'Pier' Protection

- ◆ Bond lasts 10 years on vertical surfaces and six years on horizontal surfaces
- ◆ Excellent longevity and durability to weathering
- ◆ Nontoxic, low VOCs, safe for the environment
- ◆ Non-hazardous to marine life
- ◆ Waterproofs and protects against water, mold & mildew stains
- ◆ Reduces airborne black mold
- ◆ Non-film-forming, clear formula won't discolor surfaces
- ◆ Easy cleanup with soap and water

Ready-to-use multi-surface marine formula protects against sun, salts, spray, and water damage. Excellent protection for wood or concrete docks, decks and outdoor furniture. Safe for use over open water and non-hazardous to aquatic life. Helps resist mold & mildew stains and airborne mold. Made in the U.S.A.

You license it. You label it.

Give your customers the long-lasting surface protection they need with a product they can trust, sold by you. Comes in 55-gallon drums. Email info@dendriticsllc.com to learn more about pricing and licensing.

Get the protection you need to safeguard your investment.

WOOD (All types) Decks, Fences, Docks, Piers, Planters, Outdoor Furniture, Wood Playgrounds, Planters, Furniture

CONCRETE Walkways, Docks, Piers, Steps, Platforms, Ramps, Floors, Pool Decks, Planters

OTHER Stucco, Brick, Tile (unglazed), Granite, Slate, Patios, Decks, Walkways

LEARN MORE

Revolutionary nanotechnology provides a powerful, protective barrier.

Unlike most sealants that sit on the surface—Dynaseal uses nanotechnology to penetrate deep into wood and cementitious surfaces. This creates a breathable, flexible barrier that becomes part of the cellular structure, preventing water from seeping in while allowing moisture to escape.

Nontoxic “green” formula gives customers peace of mind.

Safe for use over water. Non-hazardous to aquatic life—will not harm humans, animals, fish or plants. Dynaseal’s water-based, odorless formula has ultra low VOCs, toxins, or irritants. Plus, materials treated with Dynaseal show no leaching capacity, eliminating risk of groundwater contamination.

Keeps surfaces looking great for the long run.

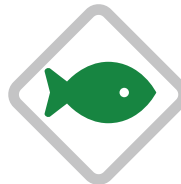

Dynaseal DS 400 is a clear nano-tech penetrating sealer that provides years of protection by reducing fungal and microbial attack by reducing available moisture. Will not discolor wood or masonry surfaces and is resistant to salts and chlorides.

Easy application on all types of wood, and concrete/masonry.

No need to wait for warm weather to apply. If the temperature is above 35°F/1.67°C, you’re good to go. Wood surfaces require only a single coat. Wood or masonry can be painted or stained as soon as it dries in approximately 2-3 hours.

Fast to dry, easy to clean up, safe to store.

Store indefinitely without worry since formula is nontoxic and nonflammable (fireproof class B). Cleans up easily with soapy water.

ABOUT DENDRITICS

Inspired by advanced nanotechnology. Driven by outstanding performance.

Dendritics LLC was founded by Hank Croteau, a leader in the industrial supply and coating business for more than 30 years, and Mike Cork, a polymer chemist with 9 patents. Joined by a shared commitment to protect the environment and the health and safety of their customers, Dendritics manufactures nontoxic, eco-friendly products that not just work but outperform their competitors.
